

Case study : Po Valley topographic blocking — DOY 177 (2022)

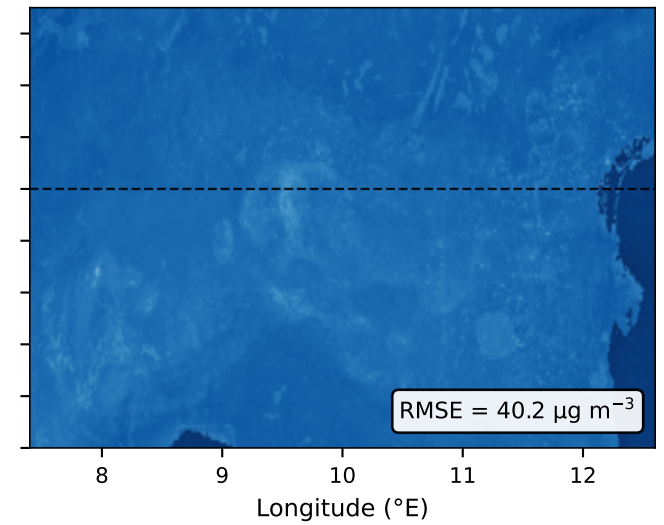

(a) Europe — GHAP PM_{2.5} daily | DOY 177 (2022)

(b) GHAP truth — Po Valley

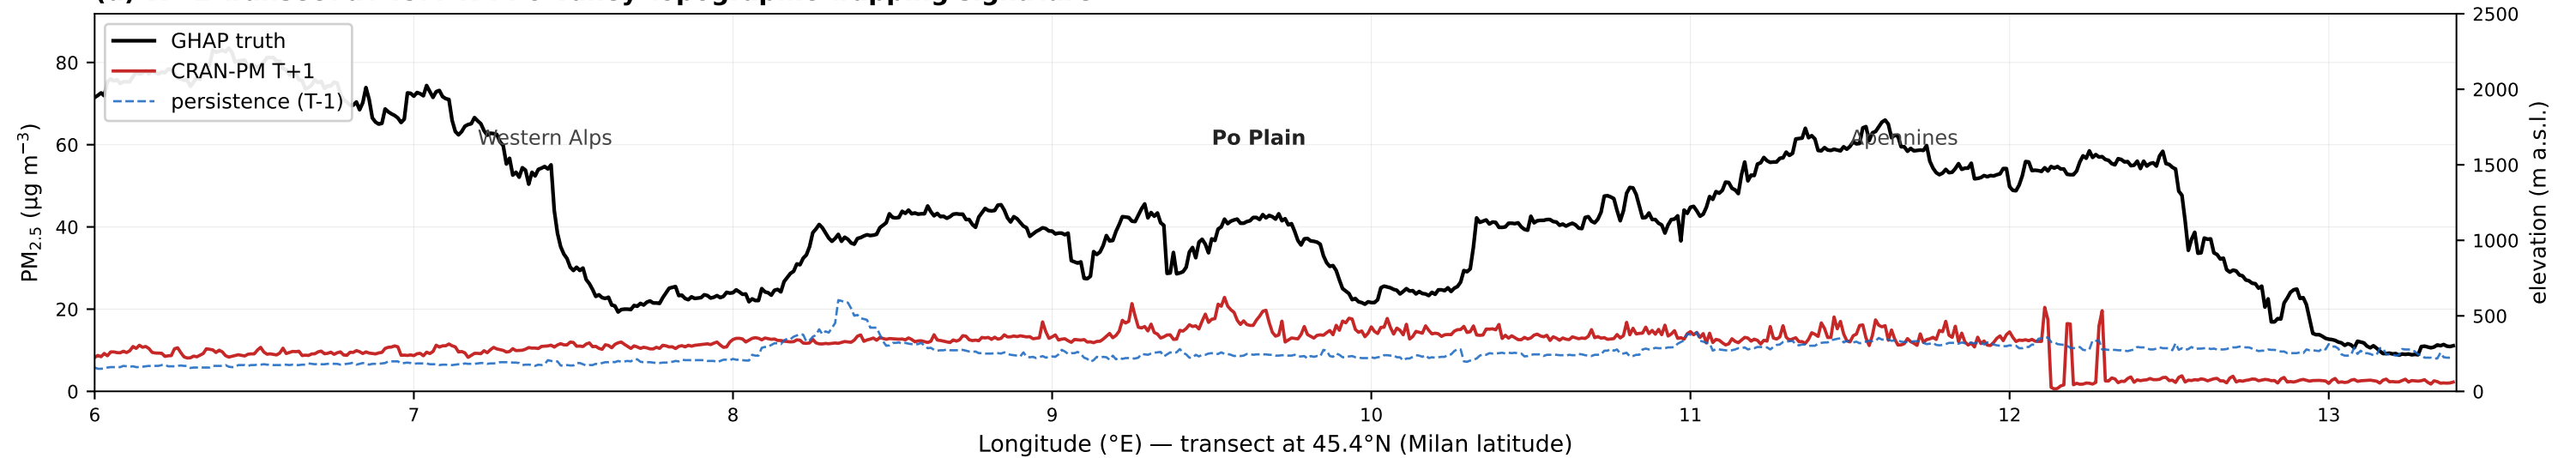

(c) CRAN-PM T+1 — Po Valley

PM_{2.5} (µg m⁻³)

(d) W→E transect at 45.4°N : Po Valley topographic trapping signature

(e) Conceptual model : stable boundary layer over the Po Plain, bounded by Alps (N) and Apennines (S)
